Passages

Adult Partial Hospitalization Program

Passages is an acute adult partial mental health hospitalization program for adults ages 18 and over with many different types of psychiatric problems. These may include affective disorders, anxiety disorders, personality disorders, thought disorders, as well as other psychiatric conditions that severely affect an individual's ability to function daily. Participants average involvement with the program is two weeks, and it helps adults to avoid inpatient hospitalization or to continue with intensive psychiatric treatment following a brief inpatient stay.

Participants take part in a variety of groups with the goal of helping them learn to manage the problems that may be causing difficulty in their lives. The group experience is important to this treatment program, because the feedback creates the opportunity for other group members to gain insight and practical solutions for their individual life circumstances. The program and the staff are committed to change and personal growth.

The program runs Monday through Friday, from 9 a.m.- 2 p.m. at our Hermitage facility. Lunch is provided daily. To schedule an interview or for more information, please contact our office at 724-983-5466, Monday-Friday, 8 am - 4 pm.

Admissions, the provisions of services and referrals of patients at Sharon Regional Health System shall be made without regard to race, color, religious creed, disability, ancestry, national origin (including limited English proficiency), age, or sex. Sharon Regional Health System provides an equal and equitable personnel system designed to prohibit discrimination on the basis of race, color, religious creed, disability, ancestry, national origin, age, or sex.
